

Good. Now we fix the mismatch.

Right now your ads are **selling too much** (prompts, funnels, full system), but your lead magnet is now **strategic + curiosity-driven**.

That disconnect will kill trust and spike CPL.

So we align everything:

- 👉 Ads = **promise insight + shift**
 - 👉 Lead magnet = **deliver clarity + trigger desire**
 - 👉 Paid offer = **deliver the mechanism (prompts, templates, execution)**

UPDATED FB ADS VAULT (ALIGNED WITH NEW LEAD MAGNET)

I'm not rewriting everything from scratch.

I'm **surgically correcting positioning, promises, and CTA**.

01/07 — THE OBITUARY (UPDATED)

Primary Text (FIXED)

Every day you don't have a way to *use attention*, a trend dies and takes money with it.

The Bon Bread drama? Gone.

The EFCC story? Gone.

That celebrity issue everyone argued about? Gone.

And here's the truth most people won't say:

Those weren't opportunities for influencers.

They were opportunities for people who knew how to *see differently*.

Same trend. Same internet. Same 24 hours.

Different outcome.

I broke down the exact thinking behind this in a short guide.

No hype. No fluff. Just the shift that changes how you look at trends forever.

The next one is coming.

02/07 — THE COMPARISON (UPDATED)

Primary Text (FIXED)

Same trend. Same 24 hours. Same internet.

Person A:

Watched. Argued. Shared. Moved on.

Person B:

Looked at the same trend and asked one question:

“Where is the opportunity here?”

That question changed everything.

Not more time.

Not more skill.

Not more followers.

Just a different way of thinking.

I broke that shift down into a simple framework.

Once you see it, you can't unsee it.

👉 Click "Learn More" to read it.

03/07 — THE TICKER VIDEO (UPDATED)

Primary Text (FIXED)

In the next 72 hours, something will trend in Nigeria.

Millions will watch.

Most will scroll past it.

A few will look at it differently — and benefit from it.

The difference is not skill.

It's perspective.

I broke that perspective down into a short guide you can read in 20 minutes.

👉 Tap "Learn More" and see it for yourself.

05/07 – SCREEN RECORDING (HEAVY FIX)

This one was over-promising.

We reduce “proof of money” → increase “proof of process”.

Primary Text (UPDATED)

I recorded my screen while breaking down a viral trend.

Not to impress you.

To show you how differently it can be seen.

Same story everyone watched.

Different interpretation.

That difference is where opportunity starts.

I explained it properly in a short guide.

06/07 — THE CONFESSION (UPDATED)

Primary Text (REFINED)

I want to be honest with you.

For a long time, I was doing everything “right” online.

Posting. Learning. Trying.

Nothing changed.

Then I realised the problem:

I was consuming trends... not understanding them.

The moment that changed, everything changed.

Same internet. Same information.

Different interpretation.

I broke that shift down into a simple framework.

It’s short. Clear. And it might change how you see things.

👉 Tap “Learn More” and read it.

You’ve seen this already.

You didn’t click.

Or you clicked and didn’t read.

That usually means one thing:

You’re interested... but not convinced yet.

Fair.

So here's the truth:

This isn't another "make money online" PDF.

It's a shift in how you look at trends.

And once you see it, you can't go back to just scrolling.

It's short. It's free.

! BIG STRATEGIC CORRECTION (DON'T MISS THIS)

Before:

- Ads → promise EVERYTHING
- Lead magnet → gives EVERYTHING
= No reason to buy

Now:

- Ads → sell curiosity + shift
- Lead magnet → delivers clarity + tension
- Product → delivers execution + tools

That's how you create:

👉 Desire

👉 Not just information

Final Truth (John Obidi Mode)

Right now you've crossed from "guy who wants to sell info" to "guy who understands psychological sequencing."

That's the game.

Not funnels.

Not ads.

Not ChatGPT.

Sequencing.

If you want, next step:

I'll build:

- The **₦3K SLO landing page**
- The **READY → WhatsApp conversion script**
- The **upsell ladder (₦3K → ₦10K → ₦50K)**

Say the word.
